Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:

The final quiz, comprising 3-4 open-ended questions, will help students gauge the key concepts covered in the lectures. Reading requirement will be reflected in the final quiz.

Oral presentations or group projects scheduled in tutorial sessions can best assess the students' overall grasp of the knowledge and skills learnt.

The individual term paper of 1,500-2,500 English characters, finalized in accordance with the instructor's comments and feedbacks, will best assess the students' command of the knowledge and skills learnt from the subject and their ability to present specific aspects of the subject. Students must obtain a D or above on the EW assignment to pass the subject. The 10% of the term paper graded by ELC, together with the final term paper, with five English academic reference as the minimum reading requirement will fulfil the ER requirement.

Students' active participation in lectures, tutorial discussions and online Blackboard learning is essential in ensuring students' understanding and improving presentation skills.
