	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: 1. The final quiz, comprising 3-4 open-ended questions, will help students gauge the key concepts covered in the lectures. 2. Students will be asked to form study groups. Numbers of group members will be determined according to the enrolment. Each group will be assigned to give oral presentation after a cultural visit. The oral presentations, each lasted for twenty minutes and given in tutorials, can comprehensively assess the earlier stage of these students' understanding of the subject. 3. The final written essay of 1,500-2,500 English words developed from individual contributions to the group presentations, can comprehensively assess the students' general grasp of the subject and their in-depth understanding of some particular aspects of it.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
